NGOCTIEN DANG

SOFTWARE DEVELOPMENT

PROJECTS

AI Customer Service Chatbot

Tools: ReactJS, C# ASP.NET Core, AI API, SQL Server
Developed an AI-powered customer service system with automated responses, conversation management, customer inquiry handling, API integration, and reporting.

AI Content Generation & Facebook Auto Posting System

Tools: ReactJS, C# ASP.NET Core, OpenAI API, Facebook Graph API
Built an automated content workflow for AI content generation, scheduling, Facebook publishing, campaign management, and performance tracking.

Hotel, Resort & Restaurant Management System

Tools: ReactJS, C# ASP.NET Core, SQL Server, RESTful API
Developed a full-stack management system covering room booking, check-in/check-out, restaurant reservations, order management, accounting, and reporting.

Carpe D. – Japanese Company Website

Tools: HTML5, CSS3, JavaScript, Responsive Web Design
Developed responsive web interfaces with a focus on UI/UX, mobile optimization, visual consistency, and cross-device compatibility.

WORK EXPERIENCE

Hung Thinh Media Co., Ltd

Full Stack Developer – AI & Automation | 2025–2026

- Developed full-stack web applications using ReactJS, C# ASP.NET Core, SQL Server, JavaScript, and Tailwind CSS.
- Built AI-powered applications and automated business workflows for content, customer service, and internal operations.
- Integrated AI APIs, RESTful APIs, and third-party services to automate repetitive business processes.
- Developed management dashboards, e-commerce interfaces, and responsive web applications.
- Built an AI content generation and Facebook auto-posting system for automated content workflows and social media publishing.
- Supported database management, API integration, debugging, deployment, and system optimization.

ASA Soft – ASA Nam Viet System

Full Stack Developer | 2023–2025

- Developed Landing, POS, Payment, Authentication, and Order Management modules.
- Worked with ReactJS, TypeScript, Vite, Tailwind CSS, RESTful APIs, and .NET backend services.
- Built reusable components and integrated frontend applications with backend APIs.
- Supported debugging, testing, UI/UX optimization, and system maintenance.

TMA Solutions

Software Developer Intern | 2023–2023

- Supported development and maintenance of internal web applications.
- Worked with HTML, CSS, JavaScript, debugging, testing, and UI improvements.
- Assisted with API integration and application functionality.
- Gained experience in professional software development workflows and teamwork.

Teky Creative Technology Academy

Technology Lecturer | 2021–2026

- Taught programming, web development, and technology courses.
- Guided students in developing websites, mini-games, and STEM projects.
- Designed practical programming exercises and project-based learning activities.
